VITEC Launches the MGW Diamond-H Compact 4K HDMI Encoder at ISE 2024

VITEC, a market-leading provider of IPTV, video streaming and digital signage solutions, is launching the MGW Diamond-H 4K HDMI encoder to further enhance its broad portfolio of HEVC encode and decode products. The MGW Diamond-H will be on display at ISE 2024 (Fira Barcelona, 30th January to 2nd February 2024, Stand 5.C300). VITEC will demonstrate it along with the new EP6 endpoint for IPTV applications.

“VITEC is proud to introduce the MGW Diamond-H, a powerful compact 4K HDMI Encoder demonstrating our commitment to innovation and meeting the evolving needs of our customers,” says Richard Bernard, Head of Product Management, VITEC. “With its impressive encoding capabilities, seamless integration features, and Power over Ethernet support, the MGW Diamond-H opens up new possibilities for IPTV distribution and video contribution across various industries.”

The MGW Diamond-H, a portable 4K HDMI Encoder is a significant addition to VITEC's portable HEVC encoder product line, setting a new standard for quality, efficiency, and integration. With the ability to encode up to 4 channels from two HDMI inputs, the MGW Diamond-H empowers users to capture and stream content with unparalleled quality and minimal latency.

The unit is designed to facilitate integration into existing setups. Featuring HDMI loop through, the MGW Diamond-H ensures a smooth workflow and enhanced connectivity with existing video equipment. For optimal reliability and power efficiency, the MGW Diamond-H can be powered via Power over Ethernet, streamlining installations and reducing the need for additional power sources.

VITEC is a leader in video encoding for many different workflows from military, enterprise, broadcast, education, and sports venues. The MGW Diamond-H meets the growing demand for 4K video encoding, while delivering low-latency delivery of high quality video in an efficient, compact form-factor.

About VITEC

VITEC is a market-leading provider of IPTV, Video Streaming and Digital Signage Solutions that help organisations harness the power of video to engage, empower

and evolve. VITEC is a pioneer in the design and manufacture of hardware and software for video encoding, decoding, transcoding, archiving and streaming over IP. Our end-to-end video streaming solutions enable customers to capture TV and video content directly from any source and manage its delivery, as channels or within digital signage screens, to any connected device via an existing network. From corporate, broadcast and venues, to accommodation, government and military, VITEC has global expertise in delivering complex, proAV solutions.

VITEC's award-winning IPTV platform is a powerful suite of services for content management, digital signage, video archiving, and video wall processing. Our encode/decode solutions are 100% hardware based, including PCIe cards with SDK for custom design or OEM for high-performance video systems.

Headquartered in Paris, France, we have a global reach through our offices across the Americas, Europe, Middle East, Africa and Asia Pacific.

Making a difference with green initiatives, VITEC is the first Zero Carbon MPEG company and encourages customers to 'buy GreenPEG' for continued environmental efforts to reduce greenhouse gases.
